LOT 34 - RBGO JULIET A113

Description

I

Fullblood Doe

DOB: 6/19/2011

Consignor: RBGO

UPDATE: Marked by buck RBGO Lex Luther on 9/6/14.

RBGO Juliet is a daughter of one of our ennobled herd sires, 4KGF Smokin Gun and one of our flush does, OWO Shelby. Smokin Gun, Ennobled, has produced multiple ennobled offspring. He was one of a pair of bucks that was Grand Champion Senior Breeding Bucks and Reserve Grand Champion Produce of Dam at the 2008 ABGA Nationals. Juliet is a productive broody doe that is of the type that is predominate in our doe herd. She stands 27.5 inches at her hip and weighs 183.5 lbs. She is 95% pigmented, has a good bite and is 1 and 1 on her udder with a non-functional. The standard wide base, wide top clean fronted doe that RBGO consistently produces. Also has a great head and horn set. Once again, it's what we do. To make this package even better, she comes to you bred to an ABGA National Reserve Grand Champion, ZA Z01 Maximizer, Ennobled. She was confirmed bred by ultrasound by our vet. She was Al'd on 7/9/14. Maximizer was developed and promoted by Advance Boer Genetics of

central, Ohio. They have a track record of identifying future icons of the breed. This could be the key to your 2015 show season.
