**Description**

GOT Kahuna's Girl 897 She was born and raised a twin. DOB 2-13-2023 Weight on 2-26-24 .... 90lbs Her sire is TMK Big Kahuna in our opinion produces some of the best does in our herd. We have around 40 Kahuna daughters in our herd we retained and are currently using. Since Kahuna was not used on our farm last year this upcoming year we will not have any daughters available from our farm. We will only have about 10 daughters we will sell this year. Here is your chance to own one of the 10 we will be selling this year. Her dam GOT Awesome Cross is the result of a flush we did crossing MJI RC'S BLUE LEGACY over one of our foundational Sports Kat doe Cafell. Cafell turned 11 this year and raised twins last year. There is not a lot of offspring out there out of the Sports Kat bloodlines.

Please reach out to JD Gibson if you have any questions regarding this lot (580) 761-8005.
