**LOT 15 - GOT Kahuna's Luna**

**Description**

GOT Kahuna's Luna 475 Sire TMK Big Kahuna who is a direct son of MGR Titans Hammer crosses with CVK June II one of Kendall and Dana Barnes foundational does. Hammers offspring has always done very well in buck test. Luna's dam is CLP Ragin Rivers Felecia I can't say enough about this doe. We bought her in Cookeville about 5 years ago. Came to our farm and never missed a beat. Black hooves that gets trimmed every couple of years. She has never been dewormed and has never needed any kind of assistance in any way. She is a large doe very deep bodied. This doe has proven herself so much we decided to flush her this year. We expect the same out of Luna especially crosses with the hammer bloodlines. I can deliver to Oklahoma sale, NKR spotlight sale, and MPI sale.
