

**Sale Name:** 2022 Superior Genetics Annual Online Kiko Sale

**LOT 8 - WAC Kaleidoscope Cleopatra L84**

### **Description**

Raised on fescue pasture with some weeds. Our group of yearlings have had some pellet and a few squares of lezpedeza hay in the last month or two. Just helping supplement them since the grass isnt meeting their nutritional needs during winter. She is a daughter of SLS Fort , who has had a good run of performance test credentials from sons and daughters over the past few years. Her Dam , RWH Halliday Duke's

Sweet did a great job for us. Very good maternal instincts and required no help or maintenance. The litter mate buck to Cleopatra was our #2 indexing kid last year at 122 and weaned at 58lbs! This girl should go on to be a hardy producer for someone's program. And she has a little bit of color so I guess that's just a bonus. If you'd like any other information feel free to message us or call/text 706-618-0444. Thanks for looking!
